

Superior Area

Big Manitou Falls is the highest waterfall in Wisconsin and the fourth highest east of the Rocky Mountains - it measures 165' high. Take a hike upstream to **Little Manitou Falls** (31' split waterfall). A pedestrian tunnel takes you from the park's main picnic area under Highway 35 to short trails that give you many views Big Manitou Falls from both sides of the river. Little Manitou Falls are south about a mile on the highway or 1.5 miles on the Nature Trail and Little Manitou Falls Trail. Located in Pattison State Park, 13 miles south of Superior. From Belknap Street (US Highway 2/53) in downtown Superior, go south on Tower Avenue (State Highway 35) 13 miles. The park's main entrance will be on your left.

Amnicon Falls Stroll along the Amnicon River as it flows over a series of delightful waterfalls and rapids. You can view them under one of the last remaining Horton Bowstring Bridges in the world or from the rocky shore of the river. 7 miles SE of Superior. Take US 2 to Cty. Hwy U. Turn right (north) on Highway U and go about .3 mile. The park entrance is on your left.

Directions to Morgan Falls

From Cable: Go North on Hwy 63 approx. 6 miles north of Grandview and turn right on Cty. E. Travel 6 miles, take right on Countyline Road. Continue 4 miles. Cross bridge, on left is entrance for Morgan Falls.

From Lake Namakagon: Go North on Cty. Hwy. D to Camp 8 Road (approx. 12 miles from M & D). Take a right, drive to Old Grade Road. Take another right about 1/2 mile and left on Marengo Lake Road. Stay on Marengo Lake Road to intersection of Four Corners Store Road. Come to a 4-way intersection, go straight onto Lovers Lane. Turn right on County Line Road. Travel approx. 2 miles, cross bridge to parking lot on your left.

ASHLAND COUNTY AREA

COPPER FALLS STATE PARK

Copper Falls is a 40' falls which marks the first drop of the Bad River as it flows through steep-walled gorges. There are hiking trails, swimming beach, picnic area with a log shelter and self-guided nature trails.

Brownstone Falls is just a short distance downstream. This is a very pretty waterfall, surrounded by impressive reddish brown rock. It is only 30 feet high but the surroundings make it look much larger. Access to the gorge is prohibited.

Red Granite Falls is better described as a set of rapids instead of a waterfall. The area is a mile or so upstream of Copper Falls. The one big advantage Red Granite Falls has over the others is that there are no fences here, and you can easily get out on the rocks amidst the rapids.

Take County M towards Clam Lake. Just before Clam Lake, take a left on "GG". Stay on GG to Highway 13, take left. Just north of Mellen, take a right on Highway 169. Follow signs to Copper Falls.

MORGAN FALLS/ST. PETERS DOME. The 1,600 foot red granite dome is the highest point in the Chequamegon-Nicolet National Forest. On a clear day you can see Lake Superior 20 miles to the North. At the south fork of Morgan Creek, a small stream of water cascades 70 feet down the face of a rock cliff to a small shaded pool. It is a ½ mile hike from the parking area to Morgan Falls, then beyond the falls about 1 mile to the top of St. Peter's Dome. This scenic area is located about 13 miles west of Mellen.

BAD RIVER FALLS on the Bad River. Approx. 6.5 miles due south of Odanah. Take Miller Rd from Odanah SE to Falls Road. Approx. 3.5 miles west, the road ends and you must continue on foot for a few hundred feet to the Bad River.

HURLEY AREA (Iron County)

Superior Falls is an impressive waterfall consisting of several drops and some very dramatic gorge walls. From the parking lot you can head to the left for a nice scenic view of the final drop (65 feet) in falls. Also easy to view is a scenic overlook to the north of the parking area, beyond the gates. You can sit on a bench overlooking Lake Superior from high atop the cliffs. Take Highway 2 to Highway 122 (north). Follow that until you reach the state line. Access to the falls is marked by a small sign that will be on the 2nd driveway on your left after you enter Michigan.

Foster Falls on the Potato Creek. From Hurley, drive SW on WI Hwy 77 to Upson. Turn north on WI Hwy 122. Take a left on Sullivan Fire Lane after about 5 miles. Or you could come directly here on 122 from Superior Falls, thus taking a right).

Saxon Falls is a 90' cascade—when it has water this is a very impressive waterfall. Unfortunately it is hard to get a good view of the falls. It is 3 miles upstream from Superior Falls (14 miles NW of Hurley). Turn left on Cty Hwy B. Continue eastward until the road takes a 90 degree turn right. Instead go left where you see the Saxon Flowage Recreation area sign. Follow the gravel road until you reach the fork.

Peterson Falls is located on the Montreal River just a few miles upstream of Saxon Falls. The cascade drops 35 feet. Follow US Highway 51 north to its end and then merge west on US Highway 2. About a ¼ mile turn right (north) at a little white sign.

About ¼ mile in, you'll see an area where you can park. Hike the dirt trail north about 2-3 blocks and you'll come to the crest of the fall. Located 1 mile NW of Hurley.

Kimball Falls is on the west branch of the Montreal River. It's a very easy access with a rustic rest room facility, a pump for water and pavilion. Go west on US Highway 2 about 3 miles from US Hwy 51. Small signs guide you from here as you turn left (south) on Park Road and then right (west) about ¼ mile down. You'll come to a little town park where you'll find this small fall.

Potato Falls: Lower Potato Falls is one of the most impressive waterfalls in all of Wisconsin, especially if you are looking for some adventure. The waterfall is large, easy to find and provides all sorts of opportunities for exploration. There is also a nearby upper falls that is equally as impressive. There's a scenic overlook to see the lower falls from a distance. There are two sets of falls on the Potato River, the last one dropping about 90 feet. 15 miles east of Ashland: Travel south from US2 on Hwy 169, 2.8 miles through the town of Gurney. Turn west on Potato Falls Road, continue 1.5 miles.

Upson Falls on the Potato River is a lovely spot for a picnic. Reminisce of days gone by at the old pavilion on the river. Two blocks west of the junction of WI Hwys 77 & 122, drive north at Upson Town Park sign, then left at end of the street. After crossing the river, turn left into the park.
